

BE IN THE KNOW

Building approval is required when re-roofing works affect 20% or more of the roof system. The owner or contractor can engage the certifier.

TAKE NOTE OF THE AGE OF THE HOUSE DURING INITIAL SITE MEASURE UP

This will help when speaking to the engineer about the drawings for the site

INCLUDE TIE DOWN DETAILS ON THE PLANS SENT TO THE CERTIFIER

These plans form the basis of the approval application which gets lodged with council

MAINTAIN A GOOD WORKING RELATIONSHIP WITH THE ENGINEER

When in doubt, ask!

SUPPORT HOMEOWNERS & CLIENTS

Provide information about the certification process. Consider an itemised quote to cover potential costs / inspection fees.
